## Weddings

I believe that wedding photographs should be spontaneous, yet still reflect the formality of the occasion. Therefore I take a mixture of reportage and traditional photographs to capture one of your biggest days of your lives.

An unlimited number (hundreds) of photographs are taken on the day and selections are then provided to you on CD for you to arrange printing as required – the copyright is yours.

The photographs are in two formats, one is for general and computer use, the other is in high resolution and enables you to have them produced in large format (canvas etc).

<b>Bronze Package</b>	Full coverage of the wedding at the venue then onto reception (approx 2-3 hours).	£695.00
<b>Silver Package</b>	Coverage at brides house getting ready, then wedding venue and reception.	£795.00
<b>Gold Package</b>	Coverage at brides house getting ready. At the wedding and reception. Also of the speeches.	£895.00
<b>Platinum</b>	Coverage at brides house getting ready. At the wedding and reception. Also of speeches up until the first dance.	£995.00

There may be extra travel charges for the mileage incurred depending on the location of the venues.

**No albums or printed photographs are supplied with the above packages.**
